PROJECTS

Event Management System

Built a college-focused Event Management System using HTML, Tailwind CSS, JavaScript, Python Flask, and MongoDB to manage and register campus events efficiently.

Food Order App

Created a Food Order App for college use with HTML, Tailwind CSS, JavaScript, Python, and MongoDB to enable easy menu browsing and online ordering.

Date Remainder

Designed a user-friendly Date Reminder app to help users track and get notified about important dates and events.

Multiple Functional Todo List

Designed a versatile Todo List app with multiple features to help users organize, prioritize, and manage tasks efficiently.

Portfolio

Created a professional portfolio to showcase projects, skills, and achievements in a clean, organized, and visually appealing manner.

ACHIEVEMENTS

- First Prize in Debugging Competition at CIET
- Second Prize for Poster Presentation at National Engineering College, Kovilpatti
- Second Prize in Project Presentation at CIET
